

The Forum is an area in the network that you can find discussion posts that pertain to more than one group in Ning. There are many of these discussions being added to each day on various topics related to Web 2.0 education by thousands of people.

1. Click on the “Forum” tab in the menu bar at the top of the page.
2. NOTE: The featured forums are at the top of the page.
3. Scroll down to view some of the forums teachers from around the world are currently participating in.
4. You can sort which discussion forums you see by click on the “Sort By” and “View” drop-down boxes near the top, right-hand side of the page.
5. NOTE: Participating in these forums is the same process as starting and responding to a discussion thread in the Muscle Shoals City Schools group.
